In the Moscow Institute of Electronics and Mathematics (MIEM HSE) will be held Moscow IEEE-workshop (**MWENT-2020**). The Workshop devoted to the issues of electronics development and its integration into the modern network engineering technologies and also modern achievements in the field of creation of control and communication systems.

Number in calendar of IEEE: 47943

The **Aim of the Workshop** is to provide an international forum for discussion of recent scientific advances in the electronic industry.

Key objectives of the Workshop:

1. Fundamental problems of radio electronics.
2. Technologies of electronic instrument engineering.
3. Network and telecommunication.

The Workshop will include **plenary and regular sessions, round-table discussions and master-classes**.

All participants of the Workshop should register at mwent.hse.ru

All accepted papers will be published in Workshop Proceedings, registered in IEEE Xplore and indexed in scientific databases. The participants will be provided with the electronic version of the proceedings.

Original articles should include well-founded scientific results and prepared according to the IEEE requirements available at the Workshop website. The papers submitted on time and prepared in correct format will be reviewed by the program committee as well as by the IEEE experts.

Important dates:

20 November 2019 – registration and paper submission deadline;

20 December 2019 – notification on acceptance;

03 February 2020 – deadline for the registration fee payment;

11–13 March 2020 – the Workshop.

Registration fee:

8500 RUB – for IEEE members;

9500 RUB – for students and postgraduate students;

13500 RUB – for all other participants.

Registration fee includes publication in the Workshop proceedings, coffee-breaks and high dinner.

Venue: Moscow Institute of Electronics and Mathematics of National Research University Higher School of Economics.
